At NCS, we understand that the end of your day may not coincide with your child’s. To help Lower School parents with after-school care, we offer two programs that provide your daughter with fun and educational experiences outside of class.

EXTENDED DAY
The Extended Day program is a great way for NCS students to play and get their school work done before heading home. It begins after the Lower School’s dismissal time of 3:30 pm and can extend as long as 6:00 pm, and it’s available any school day. Your daughter will play outdoors, eat a snack, complete her homework, and make crafts with her friends.

ENRICHMENT
Enrichment classes complement your daughter’s academic curriculum by allowing her to develop new skills, participate in creative learning, build confidence, and cultivate friendships outside of class. NCS students have learned how to code, debate, knit, dance, speak Chinese, and play chess through weekly enrichment classes. Classes vary each trimester, and new subjects are always joining the rotation.

For more information about program details and costs, contact Carolina Reyes, director of extended day and enrichment programs, at careyes@cathedral.org.
