ABOUT SUE BOSLAND

Susan C. Bosland will serve as interim Head of National Cathedral School for the 2019-2020 school year. She is coming to NCS after 18 years of leadership at Kent Place School, a girls’ school serving grades Junior Kindergarten through 12 in Summit, N.J.

Mrs. Bosland made lasting contributions to the lives of students and the future of Kent Place through her constant promotion of education, her vision and inspiration, the development of Kent Place’s positive image, her encouragement of faculty and staff, and her participation in significant advancement efforts.

Mrs. Bosland’s administration oversaw the integration of leading technology within all areas of curriculum at Kent Place, and the quality of instruction and college advising resulted in one of the leading college-placement track records in the country. Mrs. Bosland helped advance research and work on girls’ leadership styles, which had an impact on curricular development and provided support for the creation of Kent Place’s Girls’ Leadership Institute. She championed the creation of signature programs such as the Ethics Institute, Global Learning, Summer Camp, Sustainability, Economic & Financial Literacy, and STEM.

Under Mrs. Bosland’s leadership, community involvement flourished at Kent Place, culminating in one of the greatest periods of growth in the school’s century-long history. She led a $25 million fundraising effort that resulted in capital improvements of a new 45,000-square-foot LEED Gold Upper School building and the renovation of the Middle School building. The Center for Innovation, a state-of-the-art expansion of teaching and learning spaces, opened in September 2017.

Mrs. Bosland and her husband, Rick, moved to Washington, D.C., to be closer to family, and she became a partner at the executive search firm Storbeck/Pimentel & Associates, focusing on independent schools. She will take a leave of absence from that position while she serves as NCS Head.

Before coming to Kent Place, Mrs. Bosland was an administrator and also taught science at Newark Academy and science at Kingswood School Cranbrook. She holds a bachelor’s degree in biology from Denison University and a master’s in educational administration from Teachers College of Columbia University. Mrs. Bosland recently completed a term on the board of trustees for the National Coalition of Girls’ Schools, and she also served as president of the Heads Network, board secretary for the Head Mistresses Association of the East, and board chair of the New Jersey Association of Independent Schools.
